REPORT NO. 25X1X

1. The textile factory in Lasko, near Celje, is located in an old brewery, approximately 150 meters west of the Lasko railroad station (see map). The factory, surrounded by a wooden fence two and one-half meters high and guarded by militia-men, consists of three buildings. The first two buildings are made of brick and the third is of reinforced concrete, with a half-tile and half-glass roof.

2. Map Identification:

1. Ground floor building, partitioned in two, 10 x 20 meters. Offices are in the first wing. The second wing houses the trade union home and recreation room.
2. One story building, 15 x 30 meters.

Ground floor: Finishing room; dyeing room; heating room
First floor: Weaving mill; reeling room "noperija"(sic)

3. One story building, 20 x 40 meters.

Ground floor: Finished products store; raw materials store
First floor: Spinning mill

3. Machinery: mostly of German and Swiss manufacture (Schwabe, Grossenbein). Each machine is provided with its own electric motor. The machinery consists of:

- 4 incomplete automatic machines
- 28 ordinary looms, of which two are permanently in reserve
- 8 spooling machines
- 2 complete carding machines
- 4 ordinary spinning machines
- 2 cleaning machines
- 2 ironing machines

4. Operation and Production: According to plan, the factory should operate on a basis of three daily shifts, but the lack of raw materials, especially of chemicals and dyes, has presently restricted operation of the factory
